

Father

(auteur-compositeur : Ian Scott)

Father, can you hear? Father, can you hear?

Just a second way
dragging down in the west
had to lay down my soul
and try to forget

I want a second chance
and i see it this way
i just live in my world
go back again
go back to the past
like we were on that day

**Father can you hear what i say
father love has a way
father keep thinking at night
father come help me to fight**

It's just another day
sitting here all alone
killing time in the hay
till the moon comes down

Go back to the past
like we were on that day

**Father can you hear what i say
father love has a way
father keep thinking at night
father come help me to fight**

Pont :

He says
you got me wrong
i loved you, all along
showing it, knowing it, feeling it, telling it
don't let time just slip away
remember, for you,
son, my son

Break :

Father
father, can you hear
i know i know i know i know

Father
father, can you hear?
